## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Line 13 of claim 1 includes vague spelling. Note "suport". The remaining claims are indefinite since each depends from an indefinite claim.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Lines 12-14 of claim 1 render non-enablement. Applicant sets forth "a slow-downer which is connected with the hinge portion and the back support, to slow down the back support at low speed during the pulling of the back support towards the seat".

It cannot be ascertained if "low speed" is intended to be the result of action by the "slow-downer", or if the "low speed" is caused by the pulling of the back support, wherein the slow-downer further causes speed reduction. Also, does this signify that the slow-downer is not operable if the back support is pulled towards the seat at other than "low speed". The disclosure and claims lack clarity regarding this feature of the invention. Clarification is required. The remaining claims are indefinite since each depends from an indefinite claim.

### ***Response to Amendment***

Applicant's response has been fully considered. Remaining issues are described in the above sections. Applicant is advised that allowability of the claims cannot be determined with the pending indefiniteness under 35 U.S.C. 112, first paragraph.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
